## SUMMARY

Final-year B.Tech. Computer Science student and aspiring Full-Stack Developer with a proven track record of bridging the gap between clean UI design and robust backend architecture. I have balanced my academic rigor with entrepreneurial experience as the Founder of Techwarts and technical internships in Data Science and IT operations. I specialize in the Python and SQL stack to build intelligent, user-centric applications. I am currently seeking a role where I can apply my technical insights and problem-solving skills to deliver polished, scalable digital products.

## SKILLS

**Languages & Frameworks:** Python, SQL, HTML, CSS, JavaScript, Full-Stack Web Development, Responsive Web Design.

**Data & Backend:** Backend Development, Database Integration (MySQL), Data Analysis (Pandas), Data Visualization (Plotly).

**Tools & Platforms:** Microsoft Azure (AI/ML), Microsoft 365, Microsoft Excel, Canva.

**Soft Skills:** Problem-Solving, Team Collaboration, Technical Presentation, Communication.

## WORK EXPERIENCE

**Techwarts, Hisar** **Sep 2025 – Present**  
(Founder)

- Design and develop modern, responsive, and user-friendly websites tailored to business and personal needs.
- Build clean, scalable, and performance-optimized web solutions ensuring fast loading and smooth user experience.
- Create professional digital platforms that help brands establish a strong and credible online presence.

**ICT Academy – OM Sterling Global University, Hisar** **Nov 2025 – Nov 2025**  
(Trainee)

- Completed an intensive training program focused on building and deploying AI solutions using Microsoft Azure.
- Gained hands-on exposure to machine learning workflows, cloud-based AI services, and deployment practices.
- Worked on applied scenarios including data preparation, model inference, and monitoring using Azure AI/ML tools.

**Computer Express, Gurgaon** **Jun 2025 – Aug 2025**  
(IT Technician)

- Provided system support, hardware and software troubleshooting, and maintenance to ensure smooth IT operations.
- Managed device and network reliability while delivering responsive on-site and remote technical support.

**DUCAT India, Gurgaon** **Jun 2024 – Aug 2024**  
(Intern)

- Completed a data science internship focused on Python, covering data cleaning, analysis, and visualization.
- Built mini-projects using Python and Pandas to process datasets and generate meaningful insights.
- Earned certification in Data Science using Python while strengthening analytical and presentation skills.

## EDUCATION

**KL Arya DAV Public School, Hisar** **2020-2022**

- 12th CBSE with 72.6%
- 10th CBSE with 82.6%

**OM Sterling Global University, Hisar** **2022-2026**

- Bachelor of Technology in Computer Science and Engineering

## PROJECTS

**Blackjack – Casino Game**

- Developed an interactive card game using HTML, CSS, and JavaScript with gameplay logic and score tracking.
- Implemented responsive design and dynamic UI for smooth gameplay across devices.

**Health Suggest – Health Recommendation Web App**

- Built a web app that provides symptom-based health suggestions and nearby doctor recommendations.
- Designed a clean, responsive interface to help users quickly understand recommended actions.

**E-Commerce Sales & Customer Dashboard**

- Created a Python-based analytics dashboard using Pandas and Plotly for sales and customer insights.
- Implemented analytics features including cohort analysis, RFM segmentation, and KPI tracking.

## CERTIFICATIONS

---

### **The Frontend Developer Path — Scrimba**

**Issued: Mar 2025**

- Completed 80+ hours of hands-on training covering modern frontend development concepts.
- Learned JavaScript, responsive design, APIs, and React for building interactive web applications.

### **AI Manthan: Agents at Work — Google Developer Groups Cloud, New Delhi**

**Issued: Dec 2025**

- Participated in an AI-focused event exploring intelligent agents and modern AI applications.
- Gained exposure to AI innovation, cloud technologies, and real-world AI development concepts.

### **Excel Essential Training (Microsoft 365) — LinkedIn Learning**

**Issued: Aug 2024**

- Learned core Excel skills including formulas, data organization, and spreadsheet management.
- Applied Excel tools for data analysis, reporting, and efficient data handling.

### **Programming with Python — (Hartron Skill Centre)**

**Issued: Apr 2024**

- Completed a 12-week training program focused on Python programming fundamentals.
- Developed skills in problem-solving, scripting, and basic data handling using Python.
